

LEADER'S LENS

AI-Driven Political Intelligence, Citizen Grievance & Field Force Governance Platform

DOCUMENT TARGET

Executive Board & Investors

DEPLOYMENT TARGET

100% High-Availability AWS (Mumbai)

RELEASE VERSION

v1.0 Production Readiness

1. Executive Summary & Market Value Proposition

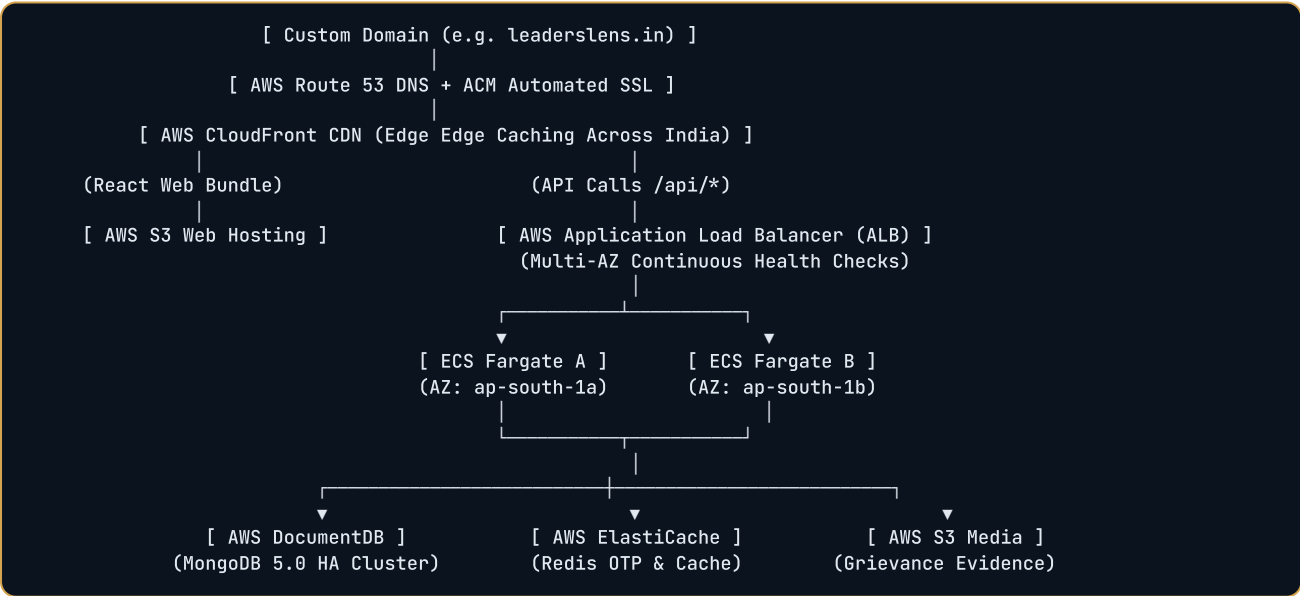

In contemporary Indian electoral governance, elected representatives (MLAs, MPs, Ministers, and Constituency Leaders) face critical operational bottlenecks: disconnected village cadres, lost paper-based grievance registers, and an absence of real-time demographic intelligence.

Leader's Lens solves this through a unified, high-performance command center:

- SLA Grievance Engine:** Real-time tracking from citizen filing to photo-verified resolution with instant SMS/WhatsApp feedback.
- Field Volunteer Force Management:** Real-time booth, village, and mandal-level assignment, productivity tracking, and squad KPIs.
- Spatial & Demographic Intelligence:** Granular distribution analysis by gender, age groups, mandals, and government departments.
- Frictionless WhatsApp Authentication:** Seamless mobile number login with 6-digit WhatsApp OTP verification via Meta Cloud API.

2. Enterprise Cloud Architecture (100% AWS High Availability)

To ensure **99.99% uptime** and eliminate bottlenecks during election campaigns, all infrastructure is consolidated within a secure Multi-AZ Virtual Private Cloud (VPC) in **AWS Mumbai (ap-south-1)**.

Zero Bottleneck Assurance: Multi-AZ ALB performs 15-second health checks. If any container experiences failure, traffic automatically fails over with 0 dropped sessions while ECS auto-launches healthy replacement tasks.

3. Meta WhatsApp API & Security Integration

Leader’s Lens replaces insecure password systems with an authenticated WhatsApp–first mobile security workflow:

- **Super Admin:** Master Email + Enterprise Multi-Factor Authentication (MFA).
- **Leaders, Directors, Volunteers & Citizens:** 10–Digit Mobile Number + 6–Digit WhatsApp OTP.
- **Automated Notifications:** Instant WhatsApp confirmation messages with Ticket ID tracking links and resolution alerts.

4. Pan-India Geographic & Political Master Dataset

The platform comes pre-architected to handle constituency data at any scale across India:

Geographic Tier	Coverage Count	Data Scope & Attributes
National / States	28 States + 8 UTs	State codes, regional capital boundaries, nodal officers
Parliamentary (Lok Sabha)	543 Constituencies	GIS shapefiles, MP demographics, voter population baselines
Assembly (Vidhan Sabha)	4,120+ Constituencies	MLA jurisdiction, historical booth margins, local issues taxonomy
Mandals / Tehsils / Blocks	6,000+ Administrative Blocks	Mandal revenue officers, Discom engineers, police stations
Villages, Wards & Booths	1,000,000+ Polling Booths	Assigned volunteer squad heads, street-level GPS mapping

5. Capital Requirements & Operational Budget

5.1 One-Time Setup Capital (CapEx)

Item / Milestone	Deliverable Description	Cost (INR)
Domain & Brand Asset Shield	Multi-year enterprise domain registration with WHOIS privacy protection	₹3,500
Meta WhatsApp Verified Business Setup	Meta Business Verification, green tick application & message template approval	₹10,000
AWS Multi-AZ VPC Architecture Setup	Multi-AZ VPC, NAT Gateways, Route 53, ACM SSL & ALB target groups	₹15,000
Pan-India Geographic GIS Dataset	Licensed boundary shapefiles, mandals, and booth hierarchy dataset	₹25,000
Security Audit & Load Testing	OWASP Top 10 penetration testing & 5,000 req/sec stress test validation	₹35,000
TOTAL INITIAL CAPITAL (CapEx)		₹88,500

5.2 Recurring Monthly Operational Expenditure (OpEx)

Infrastructure Component	Provider & Specifications	Monthly (INR)
AWS Application Load Balancer (ALB)	Multi-AZ health monitoring & traffic distribution	₹1,800
AWS ECS Fargate Backend Cluster	2 to 4 Tasks (0.5 vCPU, 1 GB RAM) with auto-scaling	₹1,600
AWS DocumentDB (MongoDB 5.0 HA)	db.t3.medium Multi-AZ cluster with automated daily snapshots	₹6,200
AWS ElastiCache for Redis	Multi-AZ cache for sub-millisecond OTP validation	₹1,500
AWS CloudFront CDN & S3 Storage	Edge static delivery + S3 grievance evidence photos	₹1,100
AWS WAF & Secrets Manager	Web Application Firewall protection & credentials vault	₹600
Meta WhatsApp Authentication OTPs	~15,000 OTP logins + 10,000 push alerts (@ ₹0.14/msg)	₹3,500
TOTAL MONTHLY OPERATIONAL RUN-RATE (OpEx)		₹16,300 / mo

6. Strategic Commercial Multipliers

- High Gross Margin:** Typical political consulting retainer per constituency is ₹50,000 – ₹1,50,000/month, against infrastructure cost of < ₹5,000/month (> 85% gross margin).
- Zero-Re-architecture Scale:** Multi-tenant architecture allows instantly onboarding 10 to 100 constituencies with single database seeds.
